Berlitz Proficiency Levels

Our Teaching Our Educational Philosophy

The Berlitz Method lets you approach a new language in a natural fashion. In your Berlitz course you only speak and hear your target language. This means that you learn it as though you were in the country where the language is spoken.

This immersive experience allows you to overcome any inhibitions about speaking by applying your new skills in everyday situations.

Here are some tips to help you develop your English faster:

- ✓ Don't be ashamed of making mistakes. The biggest mistake is not to practise at all!
- ✓ Speak to your teacher or to the academic team for ideas that can help you as an individual.
- ✓ Use English outside the classroom too! Try mixing with other nationalities.
- ✓ Use online resources. Ask your teacher or the academic team for some suggestions.
